Atlas 30 Balanced Fluid Head

The "Atlas 30" is a completely new design head, with a patented counterbalance system.

Capable of taking camera's up to 30Kgs (66lbs) @ 25cm (10") above the heads pivotal centre. Operated by a single control knob, from 0 - 100%.

Incorporating the well proven Ronford-Baker fluid system, with 7 stages of fluid control on pan & tilt. With a zero (free) position.

These give unprecedented smoothness & accuracy of control & balance under all situations.

Technical Specifications

Weight: 9Kgs / 19.80lbs.

Height: 26cm / 10 1/4"

Height from tripod top with ball fitting
20cm / 8" With Mitchell fitting 25cm / 9
3/4"

Width : 23cm / 9"

Depth : 18cm / 7"

Maximum load: 30Kgs.

- Tilt range + & - 90 degrees.
 - Pan range 360 degrees continuous.
 - Pan bar mounts. Two on ratchet discs.
 - Lifting handles : Yes
 - Head bases 150 m/m or Mitchell (adaptor).
 - Stand off protection on both sides of the head.
 - Sand proof sealed.
 - Camera mountings Arri Dovetail slide or 2 x Sliding Quick release plates.
Short plate has 7" / 18cm movement. The Long plate has 13" / 33cm movement.
 - Fluid system, 7 steps pan & tilt with zero positions at either end of the scale.
 - Counterbalance this can go into "Free" position for Whip pans.
 - Spirit level with Tritium light source.
 - Adjustable Eyepiece levelling bracket.
 - Smooth positive braking on pan & tilt.
